Alex Vincent-Hill

(541) 602-9122 | 420 26th St. #3 alexanderjvincenthill@gmail.com | Oakland, CA 94612

EXPERIENCE

Solutions Engineer | Fetch (San Francisco, CA)

Oct 2017 - present

- · Developed proprietary technology solutions to improve media execution and analytics agency processes
- Deployed and maintained React, Google Apps Script js, AdWords script, AWS EC2 LAMP, and VBA production code, administered GitHub account, contributed to Dynamic Creative Optimization product
- · Led the outsourcing and documentation of processes to partners within agency network
- Taught VBA macro scripting and MS Excel functionality courses in SF, LA, and London offices

Programmatic Coordinator | Fetch (San Francisco, CA)

Feb 2017 - Oct 2017

- Enabled \$2MM labor savings through implementation of adserver and paid media and analytic platform automation, allowing one client to launch an average of 400 campaigns per month across programmatic display, search, and social platforms
- Responsible for programmatic channel performance: strategic development, campaign implementation, optimization, and data analysis

Semiconductor Fab Process Engineer | HP Inc. (Corvallis, OR)

Apr 2015 - Feb 2017

- · Assured quality of HP Inc. inkjet printer MEMS devices and the silicon etch process
- Brought new \$3.2MM etch tool into production, and guaranteed process quality with chemical analysis, statistical comparison tests of downstream defect and yield data, and design of experiments
- · Presented internal silicon micro-machining manufacturing methods to engineering and technical staff
- · Created and optimized a new etch process for next-generation HP Inc. inkjet printing manufacture

Print Systems Engineering Intern | Hewlett Packard Co. (Corvallis, OR)

Summer 2014

- Investigated air generation in printer ink by designing a 3D-printed module to measure out-gassing as a function of surface temperature and fluid flow-rate to understand customer product failures
- · Created a model to predict product failures currently used to focus resources on reducing high-risk product use

Undergraduate Researcher | Lawrence Berkeley National Lab (Berkeley, CA)

2013 - 2014

- Explored chemical bonding by exciting ethylene molecules with a high-harmonic laser process
- Designed and installed a low-pressure beamline filter, constructed and aligned a laser compressor, received specialized safety training, and operated and maintained a 40W Class 4 research femptolaser for ~500 hours

Graphic Designer | Woot.com

2013 - present

• Designed and contracted t-shirt designs with ~3,000 total sales worldwide

EDUCATION & LEADERSHIP

University of California, Berkeley, B.S. Chemistry
Universidad de Granada, Spain, Spanish, Art History, Latin-American Economies
Nu Chapter of Phi Kappa Tau Fraternity, Scholarship Chair
UC Berkeley Student Learning Center, Peer Tutor

Fall 2014 Fall 2013

2011 - 2014

2012 - 2013

SKILLS

- React, ES6, HTML5, CSS3
- Python 3.5
- Java Processing
- PHP. AWS EC2 LAMP
- Google Apps Script js
- Excel VBA scripting
- bash, git, GitHub
- Adobe Creative Suite (PS, Ai)
- Putty, Cyberduck, Heroku
- DoubleClick Digital Marketing (DBM,DCM, DS)
- Google AdWords scripting
- FB Ads Manager
- JIRA, Trello
- Spanish language
